

Proposal of the Board of Directors for Authorization to Decide on the Repurchase of the Company's Own Shares

The Board of Directors proposes that the Annual General Meeting authorize the Board to resolve to repurchase a maximum of 50 million Sampo A shares representing approximately 9.0 per cent of all A shares of the company. The repurchased shares will be cancelled.

The price paid for the shares repurchased under the authorization shall be based on the current market price of Sampo A shares on the securities market. The minimum price to be paid would be the lowest market price of the share quoted during the authorization period and the maximum price the highest market price quoted during the authorization period.

The repurchases under the authorization are proposed to be carried out by using funds in the unrestricted shareholders' equity which means that the repurchases will reduce funds available for distribution of profit.

The authorization for repurchases is proposed to be carried out in such marketplaces the rules of which allow companies to trade with their own shares. Sampo A shares will be repurchased at a market price of the time of repurchase in public trading in those

marketplaces, in which the company share is publicly traded. The company may enter into derivative, stock lending or other arrangements customary in capital market practice within the limits set by law and other regulations. In repurchases through such marketplaces, the company will follow the rules and guidelines regarding, among other factors, the determination of the repurchase price, settlement and disclosure of trades, of the marketplace in which the repurchase is carried out.

The holder of all Sampo B shares has given its consent to a buy-back of A shares.

It is proposed that the authorization will be valid until the close of the next Annual General Meeting, provided this is not more than 18 months from the Annual General Meeting's decision.
