Long-term incentive scheme 2020:1 for key employees of Sampo Group

Terms and conditions

1. Incentive scheme for Sampo Group

On 5 August 2020, the Board of Directors of Sampo plc decided on the long-term incentive scheme for the management and other key employees of Sampo Group (hereinafter jointly the “key employee(s)”) in accordance with these terms and conditions (updated on 13 September 2023). The incentive scheme shall be applied to those Sampo Group companies, which are employer companies of the key employees (hereinafter the “employer company(ies)”). The adoption of this incentive scheme shall be separately approved by the relevant Sampo Group companies.

The incentive scheme complies with the Sampo Group Remuneration Principles and the remuneration policies of the relevant Sampo Group companies in force at the launch of this incentive scheme. In the event of conflicts or discrepancies between the above-mentioned Remuneration Principles or remuneration policies and mandatory regulation, mandatory regulation shall prevail.

2. Size of the incentive scheme and allocations to the key employees

The Board of Directors of Sampo plc has authorized the Group CEO and President of Sampo Group (hereinafter the “Group CEO”) to decide on the allocation of incentive units (an incentive unit is a theoretical calculation unit that will be used to determine the incentive reward as specified in section 5) and on the exact date when the incentive units will be granted to the key employees. Such decisions concerning the Group CEO and the Group Executive Committee

members shall, however, be made by the Board of Directors of Sampo plc. The boards of directors of the relevant Sampo Group companies shall approve the allocations to the key employees, in accordance with the remuneration policies in force at the launch of this incentive scheme.

The maximum number of the incentive units shall be 4 500 000 in total for Sampo Group. A maximum of 90% of the incentive units may be allocated during August to September 2020, a maximum of 5% of the incentive units may be allocated during August to September 2021 and the remaining incentive units may be allocated during August to September 2022. Allocations in August and September 2021 and in August and September 2022 may be directed to new recruits or to current Sampo Group employees with materially changed circumstances or holding a position of increased strategic importance.

Appendix 1 and 2 to these terms and conditions specify the exceptions that apply to the incentive units allocated under the incentive scheme in August and September 2021 and in August and September 2022 respectively. Except as otherwise stated in Appendix 1 and 2, these terms and conditions shall also apply to the incentive units allocated in August and September 2021 and in August and September 2022. In case of conflicts between these terms and conditions and Appendix 1 and 2, Appendix 1 and 2 shall prevail with regard to the incentive units allocated in August and September 2021 and in August and September 2022 respectively.

The allocation of incentive units shall be based on a combination of the assessment of the performance of the individual, of the business unit and/or business area concerned and of the overall results of the relevant Sampo Group company, the division and/or Sampo Group. In addition to quantitative criteria, qualitative criteria shall also be taken into account in the assessment, such as the compliance with internal and external rules for the business.

All key employees will be sent a notice notifying them of their right, but not the obligation, to participate in the incentive scheme and of the number of incentive units granted to them that will be used to determine their incentive reward.

3. Payment of the incentive reward on incentive units allocated in 2020

The potential incentive reward will be paid in three installments. The first installment, based on 30% of the granted incentive units, will be paid by the end of September 2023, the second installment, based on 35% of the granted incentive units, will be paid by the end of September 2024 and the third installment, based on 35% of the granted incentive units, will be paid by the end of September 2025 (all three installments together referred to as the “incentive reward” and each separately as the “installment”).

The boards of directors of the relevant Sampo Group companies shall approve the payments to the key employees, in accordance with the remuneration policies in force at the launch of this incentive scheme.

3.1. Employment or service relationship in Sampo Group

The payment of each installment requires that:

- the key employee has an employment or service relationship with any of the Sampo Group companies at the time of payment of the installment; and
- the key employee has not given a notice of termination of employment or service relationship prior to the payment of the installment, unless otherwise stipulated in section 6.1.

The Group CEO may, taking into account the provisions of section 6.1, decide to give an exception in writing from the above-mentioned requirements in which case all other terms and conditions of this incentive scheme shall still apply. Such decisions concerning the Group CEO and the Group Executive Committee members shall, however, be made by the Board of Directors of Sampo plc.

Within Sampo Group, the employer company of a key employee shall pay the incentive reward to the key employee. If the employer company of the key employee changes within Sampo Group, the new employer company shall be responsible for the payment of the incentive reward, unless otherwise agreed between the new employer company and the former employer company.

The granting of incentive units or the payment of incentive reward under this long-term incentive scheme does not constitute a term or condition of the key employee's employment or service relationship, nor does it form a part of the key employee's employment or service contract. The incentive reward does not form a part of the key employee's salary or benefit of any kind. The incentive reward is not included in the basis for calculation of pensions unless otherwise required by law or other mandatory regulation.

3.2. Individual performance evaluation

Prior to the payment of each installment, an assessment of the performance of the individual key employee shall be conducted. The employer company shall, at its sole discretion, have the right to cancel in whole or in part the payment of the installment if material non-acceptable risk-taking or breaches against internal or external rules for the business by the key employee have materialized.

3.3. Restriction on payment of the incentive reward

The Board of Directors of Sampo plc shall, at its sole discretion, have the right to cancel in whole or in part or to postpone the payment of the incentive rewards if the payment would threaten any of the Sampo Group companies' and/or Sampo Group's ability to maintain an adequate capital base.

3.4. Pension costs

Pursuant to laws or regulations applicable from time to time, the employer companies may be required to withhold also other than statutory pension premiums, i.e. supplementary pension premiums (such as pension premiums based on collective agreements) upon paying the

incentive reward to the key employees. The key employees are personally responsible for any supplementary pension premiums associated with the incentive reward paid to the key employee. In any case (unless otherwise stipulated by applicable laws) the incentive reward shall be reduced by any supplementary pension premiums and associated taxes paid by the employer companies on behalf of any key employee due to the payment of the incentive reward.

3.5. Taxation

The key employees are personally liable for any tax associated with the incentive reward paid to the key employee (e.g. transfer tax, dividend tax, tax on capital gain). The employer company shall withhold income tax from the gross amount of each installment.

4. Deferral of part of the incentive reward

4.1. Identified staff

The deferral rule set out in section 4 applies to incentive rewards paid to the key employees who are subject to the deferral rule in accordance with the remuneration policies of the relevant Sampo Group companies in force at the launch of this incentive scheme (hereinafter the “identified staff”).

4.2. Restricted shares and restriction period

The identified staff shall, when each installment is paid or at the first possible opportunity, taking into account the insider regulations, purchase Sampo A shares on a regulated market or a multilateral trading facility in which the Sampo A share is publicly traded with 50% of the installment after deducting income tax and other comparable charges (hereinafter the “restricted shares”). If a member of the identified staff is subject to a higher deferral percentage in accordance with mandatory regulation or the remuneration policy of the relevant Sampo Group company in force at the time of payment of the installment, the higher percentage shall be applied to the purchase of the Sampo A shares. The Sampo A share purchases shall be made through a financial institution determined by Sampo Group. The company will pay any possible transfer tax related to the acquisition of the Sampo A shares.

The restricted shares shall be subject to disposal restrictions for three years from the date when the installment was paid to the identified staff (hereinafter the “restriction period”). Therefore, the restricted shares shall be placed in a book-entry account in a financial institution determined by Sampo Group in the name of the identified staff with a formal restriction on the right of disposal i.e. the identified staff may not sell, pledge or otherwise dispose the restricted shares during the restriction period (hereinafter the “disposal restriction”). The identified staff hold other shareholder rights during the restriction period, e.g. the right to vote and to receive dividends.

If the number of the restricted Sampo A-shares changes due to the issue of new shares, share split, bonus issue or other such arrangement, the disposal restriction shall apply also to such securities potentially received on the basis of the restricted shares' ownership.

4.3. Ban on using hedging instruments

The identified staff is not allowed to enter into any financial market hedging transactions or use any remuneration and liability-related insurance, which would undermine the risk alignment effects embedded in the deferral mechanism set out in section 4. Hence, it is forbidden to enter into transactions that are specifically hedging against the decline of the share price of the restricted shares.

4.4. Release of the restricted shares

The Board of Directors of Sampo plc is entitled to decide on removing the disposal restriction on the restricted shares at the end of each restriction period.

The Board of Directors of Sampo plc shall, at the end of each restriction period, decide on the possible release of the restricted shares. The Board of Directors of Sampo plc shall have the right to:

- postpone the release of the restricted shares; or
- adjust downwards the amount of the restricted shares; or
- entirely cancel the release of the restricted shares

(i) if material non-acceptable risk-taking or breaches against internal or external rules for the business by the member(s) of the identified staff have materialized or (ii) if the release would threaten the relevant Sampo Group company's and/or Sampo Group's ability to maintain an adequate capital base (hereinafter the "conditions for non-release").

In case one or more of the conditions for non-release of the restricted shares prevail and the Board of Directors of Sampo plc decides to adjust downwards the amount of the restricted shares or entirely cancel the release of the restricted shares, the member(s) of the identified staff shall be obliged to, at the sole discretion of the employer company, either (i) return an amount corresponding to the value of the non-released restricted shares at the end of the restriction period or (ii) return the non-released restricted shares to the employer company.

If the conditions for non-release do not apply, the restricted shares will be released to the identified staff within one month after the expiry of each restriction period, unless otherwise stipulated in sections 6.2 and 11.

The identified staff shall have the obligation to provide to Sampo Group all required information and consents for the (i) payment of the incentive reward, (ii) purchase of the Sampo A shares, (iii) administration of the restricted shares, (iv) release of the restricted shares and (v) downwards adjustment or cancellation of the release of the restricted shares, including actions enabling the employer company to repossess the non-released restricted shares and/or the amount corresponding to their value. Sampo Group shall not be responsible for any difficulties or losses caused by inaccurate information given by the identified staff.

5. The amount of the incentive reward for incentive units allocated in 2020

The incentive reward shall be based on:

- The share price development of the Sampo A share;
- The share price development of the Mandatum plc share;
- The return on capital at risk (hereinafter “RoCaR”); and
- The number of theoretical incentive units granted.

5.1. Share price development

The installment to be paid in September 2023 shall be determined as follows:

The value of one (1) incentive unit shall be the trade-weighted average price of the Sampo A share on Nasdaq Helsinki Ltd for twenty-five (25) trading days commencing the day after Sampo plc’s publication of its Half-Year Financial Report in 2023, but not more than EUR 56.94 (hereinafter the “maximum value”), reduced by the starting price. The starting price shall be the trade-weighted average price of the Sampo A share on Nasdaq Helsinki Ltd during twenty-five (25) trading days commencing the day after Sampo plc’s publication of its Half-Year Financial Report in 2020, reduced by the combined dividends per share decided up until the payment date, including, for the avoidance of doubt, any extra dividends as decided by the Board of Directors (hereinafter the “starting price”). The trade-weighted average price for the period of 6 August to 9 September 2020 is EUR 32.94 per share.

The installment to be paid in September 2024 shall be determined as follows:

The value of one (1) incentive unit shall be the combined value of the trade-weighted average price of the Sampo A share on Nasdaq Helsinki Ltd for twenty-five (25) trading days commencing the day after Sampo plc’s publication of its Half-Year Financial Report in 2024 and the trade-weighted average price of the Mandatum plc share on Nasdaq Helsinki Ltd for twenty-five (25) trading days commencing the day after Mandatum plc’s publication of its Half-Year Financial Report in 2024, but not more than the maximum value, reduced by the starting price.

The starting price shall be the trade-weighted average price of the Sampo A share on Nasdaq Helsinki Ltd during twenty-five (25) trading days commencing the day after Sampo plc’s publication of its Half-Year Financial Report in 2020, reduced by the combined dividends per share of Sampo plc and Mandatum plc decided up until the payment date, including, for the avoidance of doubt, any extra dividends as decided by the Board of Directors of the respective company.

The installment to be paid in September 2025 shall be determined as follows:

The value of one (1) incentive unit shall be the trade-weighted average price of the Sampo A share on Nasdaq Helsinki Ltd for twenty-five (25) trading days commencing the day after Sampo plc's publication of its Half-Year Financial Report in 2025, but not more than the maximum value, reduced by the starting price.

The maximum value and the starting price for the installment to be paid in September 2025 shall be reduced by the value of the trade-weighted average price of the Mandatum share on Nasdaq Helsinki Ltd for twenty-five (25) trading days commencing the day after Mandatum plc's publication of its Half-Year Financial Report in 2024.

The starting price for the installment to be paid in September 2025 shall furthermore be reduced by the combined value of the dividends per share of Sampo plc decided up until the payment date and the dividends per share of Mandatum plc decided up until Mandatum plc's publication of its Half-Year Financial Report in 2024, including, for the avoidance of doubt, any extra dividends as decided by the Board of Directors of the respective company.¹

The part of the calculated trade-weighted average price of the Sampo A share, or of the combined value of the trade-weighted average price of the Sampo A share and the Mandatum plc share, that exceeds the maximum value, shall not be taken into account when calculating the value of one (1) incentive unit, and an increase in the trade-weighted average price of the Sampo A share, or in the combined value of the trade-weighted average price of the Sampo A share and the Mandatum plc share, over the maximum value shall not increase the incentive reward.

Should Sampo plc or Mandatum plc decide to distribute an extra dividend (the record date of which is prior to the payment date), the Board of Directors of Sampo plc may, at its sole discretion, decide to adjust the maximum value by deducting the aforementioned dividend from the maximum value.

5.2. Return on capital at risk

In addition to the above, the calculation of the incentive reward shall take into account the performance of Sampo Group in terms of the RoCaR as follows:

$$\text{RoCaR (Q3 2020–Q4 2022)} = \frac{\text{Average Profit on Operations}^2 \text{ for the period}}{\text{Average Sampo Group Solvency Capital Requirement}}$$

$$\text{RoCaR (Q1 2023–Q2 2025)} = \frac{\text{Average Sampo Group's operational result for the period}}{\text{Average Sampo Group Solvency Capital Requirement}}$$

- If the RoCaR during Q3 2020 – Q2 2023 is at least risk-free return +3% but less than risk-free return +5%, 50% of the installment due will be paid in September 2023
- If the RoCaR during Q3 2020 – Q2 2023 is risk-free return +5% or above, 100% of the installment due will be paid in September 2023

The incentive reward will be paid within two weeks of the time when it was possible to determine the incentive reward. - The share price development of the Sampo A share;
- The share price development of the Mandatum plc share;
