Investor Presentation

January–September 2026

4 November 2026

Disclaimer

This presentation may contain forward-looking statements that reflect management's current views with respect to certain future events and potential financial performance. Although Sampo believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct. Accordingly, results could differ materially from those set out in the forward-looking statements as a result of various factors.

Important factors that may cause such a difference for Sampo include, but are not limited to: (i) the macroeconomic development, (ii) change in the competitive climate and (iii) developments in capital markets.

This presentation does not imply that Sampo has undertaken to revise these forward-looking statements, beyond what is required by applicable law or applicable stock exchange regulations if and when circumstances arise that will lead to changes compared to the date when these statements were provided.

SAMPO GROUP

Financial highlights

Q3/2026: Continued high-quality growth

- Top-line growth supported by broad-based and improved momentum across the private and SME lines
- Strong traction in Nordic Commercial with high-single-digit like-for-like GWP growth for the second consecutive quarter
- Consistently strong UW margins across all segments, supported by favourable claims development and disciplined underwriting
- Underwriting result strengthened by 9% on a currency adjusted basis, driven by robust top-line growth and strong UW margins
- Adverse mark-to-market movements weighed on reported EPS, while operating EPS continued to grow

Outlook for 2026 adjusted

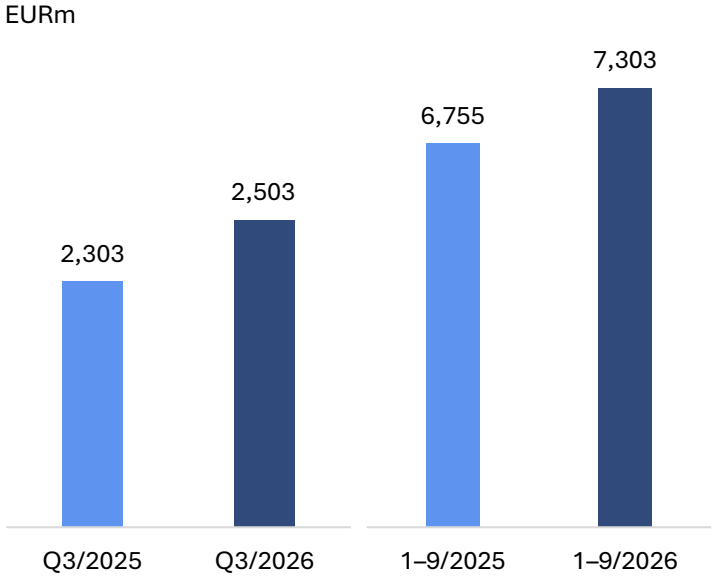

Insurance revenue
EUR 9.75–9.85 billion
→ from EUR 9.70–9.85 billion
+7-9% YoY

Underwriting result
EUR 1,600–1,650 million
→ from EUR 1,550–1,625 million
+8-11% YoY

Adjusted outlook reflects favourable claims development in 1–9/2026, both in terms of severe weather and large claims, as well as continued robust, broad-based top-line growth.

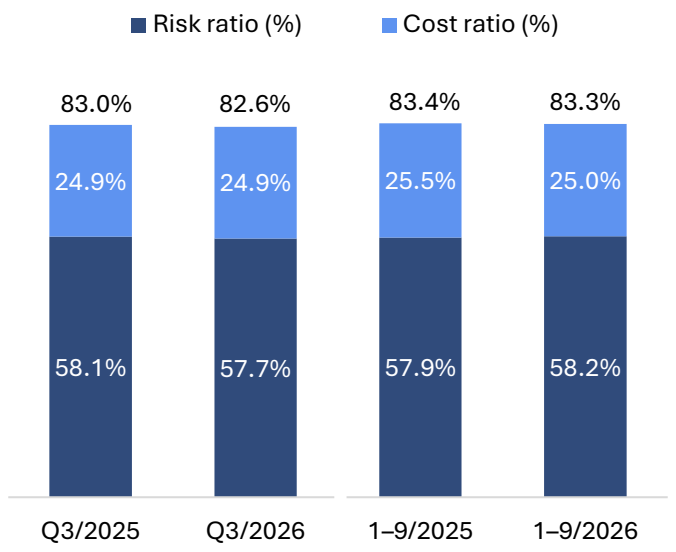

Consistent improvements across key underwriting KPIs

Insurance revenue

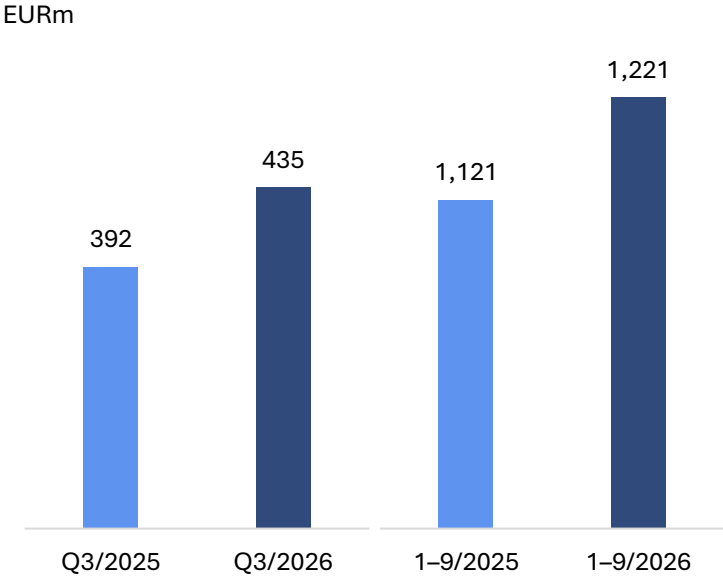

- Insurance revenue growth of 9% in Q3, supported by all segments
- Improved momentum in Q3, particularly in private and SME lines

Combined ratio

- Risk ratio reflecting a more normalised but still benign claims environment
- Improving cost ratio driven by cost discipline and efficiency gains

Underwriting result

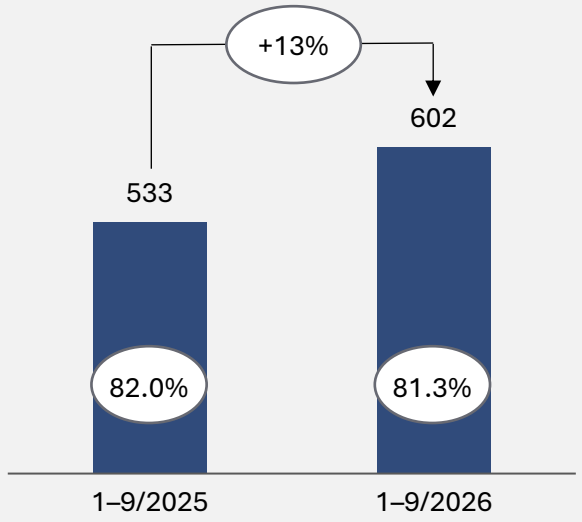

- Underwriting result growth accelerated to 9% on a currency adjusted basis in Q3, driven by robust top-line growth
- Strong UW margins across all segments, reflecting a disciplined approach to growth

Performance supported by growth and strong margins across segments

Private Nordic

GWP: 3,416 (+5.4%)
Insurance revenue: 3,230 (+6.5%)

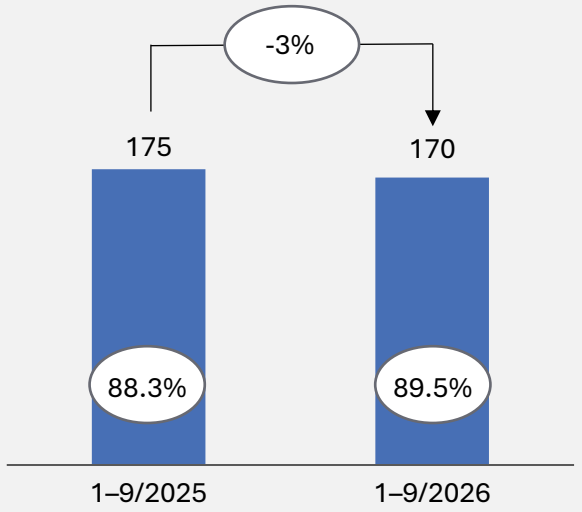

UW result and combined ratio

Private UK

GWP: 2,328 (+5%)
Insurance revenue: 1,621 (+11%)

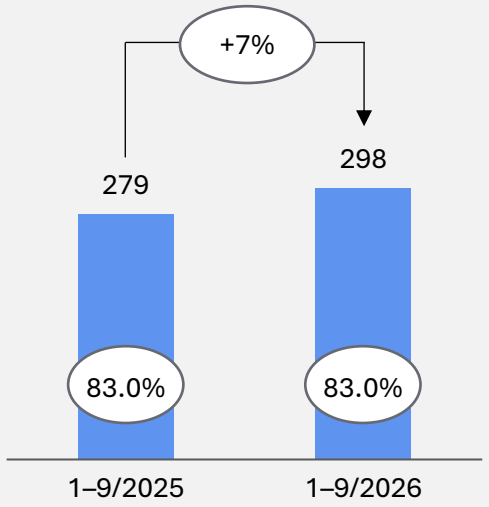

UW result and combined ratio

Nordic Commercial

GWP: 2,025 (+3.1%)
Insurance revenue: 1,755 (+5.0%)

GWP: 843 (-0.4%)
Insurance revenue: 481 (+8.7%)

UW result and combined ratio

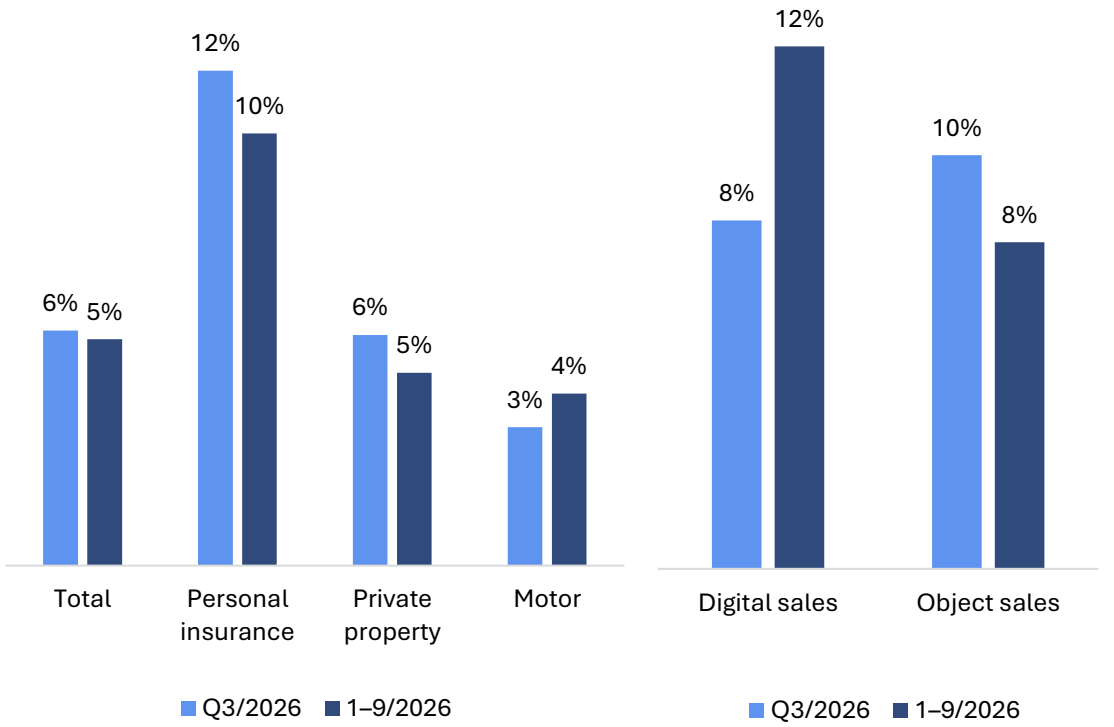

Figures in EUR million. GWP and insurance revenue include broker revenues. GWP and insurance revenue growth on like-for-like basis.

Private Nordic: Durable growth with attractive underwriting margins

- Top-line growth continued to be supported by high and stable retention and strong new sales performance
- Strong demand-driven growth in personal insurance, resulting in 12% growth in the quarter
- Uptick seen in Nordic new car sales expected to gradually feed through to premium growth
- Growing customer adoption of digital services contributing to growth, efficiency and high customer satisfaction
- Benign claims frequencies, favourable weather conditions and top-line growth supported a strong underwriting result

Continued broad-based growth with solid momentum

Private Nordic like-for-like GWP growth

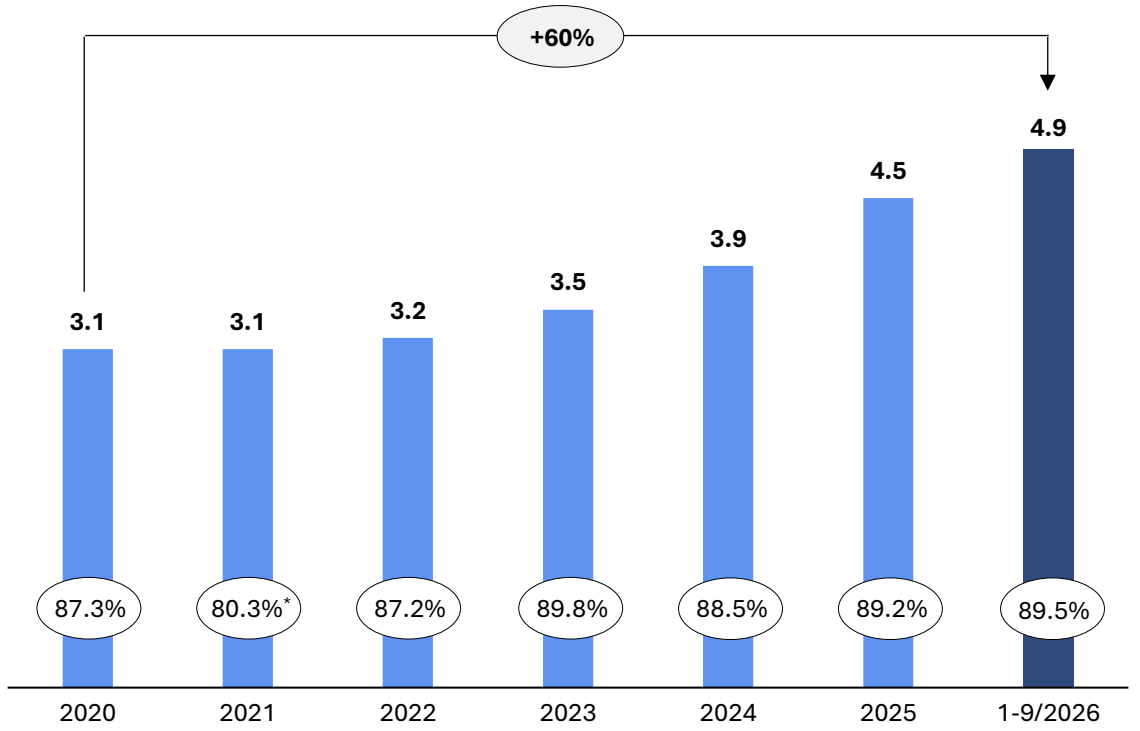

Private UK: Strong LCP growth at target UW margins

- UK motor market remained on the softer side, but with price stabilisation on renewal business
- Attractive top-line growth over the quarter, driven by higher policy volumes
- LCP count increased to 4.9 million, with year-on-year growth accelerating to 13%
- Lower average premiums year-on-year, reflecting current point in market cycle and mix effects
- UW margins in line with targets, even allowing for higher subsidence and fire claims in home and slightly higher motor frequencies over the summer.

Consistent growth at attractive margins

Million LCPs and combined ratio (%)

*) COVID-19 and a 3.1%-p benefit from acquisition accounting adjustments related to Hastings benefited the CoR.

Nordic Commercial: Accelerating momentum underpinned by SME

- Top-line growth propelled by accelerating momentum in SME and sustained growth in personal insurance
- SME delivered broad-based growth across the Nordics supported by increased sales
- Customer numbers continued to grow while retention remained high and stable
- Positive momentum in digital sales with online sales up 25% over the quarter
- UW margins continued to improve with a combined ratio of 82.1% in Q3, supported by favourable claims experience

Solid growth momentum underpinned by continued traction with SME and through digital channels

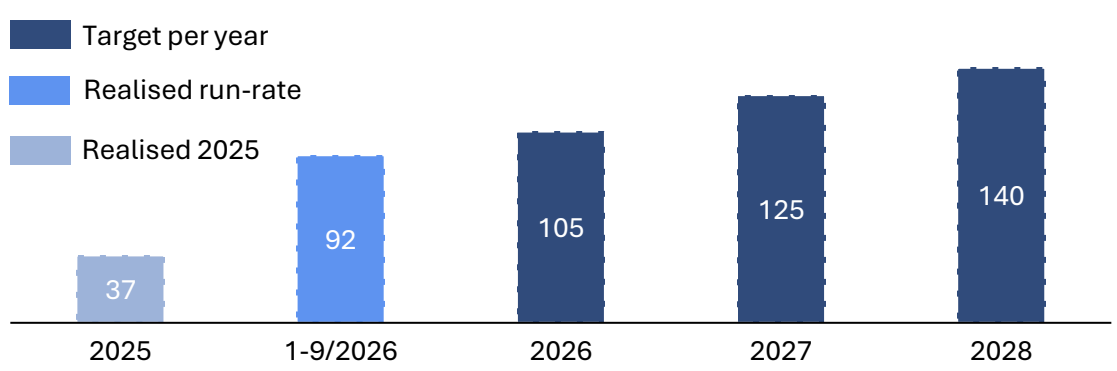

Growth rates for 2023 and 2024 excluding Topdanmark.

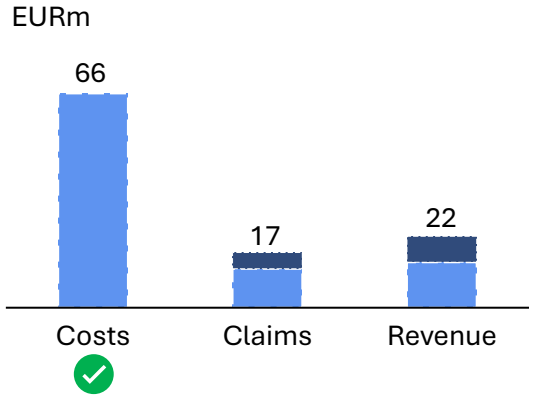

Topdanmark integration progressing as planned

- Strong delivery on synergies with cumulative realised run-rate close to 80% of the 2026 target, driven by cost synergies in IT and manning
- Two-thirds of the total synergy target for 2028 already achieved, with further potential still to capture across cost, claims and revenue synergies
- Core IT system harmonisation in Denmark resulted in a one-off non-cash impairment charge of ~EUR 118 million, with If's platform selected for Commercial and Topdanmark's for Private
- Integration progressing at full speed towards the next milestone with the transition of the Topdanmark brand to If in late November 2026

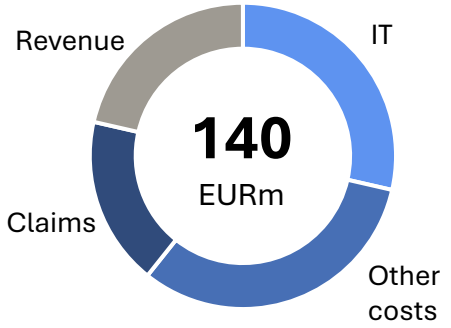

Synergy run-rate realisation target by year

Synergies by source (2026)

Synergies by type (2028)

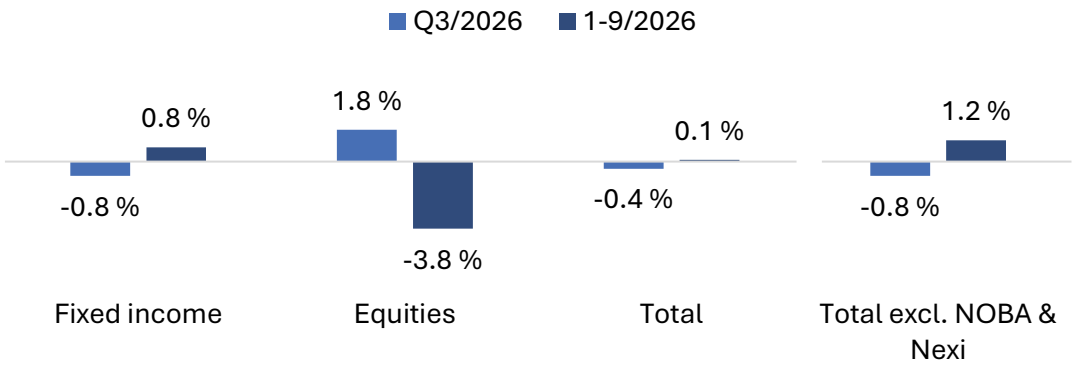

All synergies effects reported on a run-rate basis, before taxes

Adverse mark-to-market movements partly offset by legacy assets

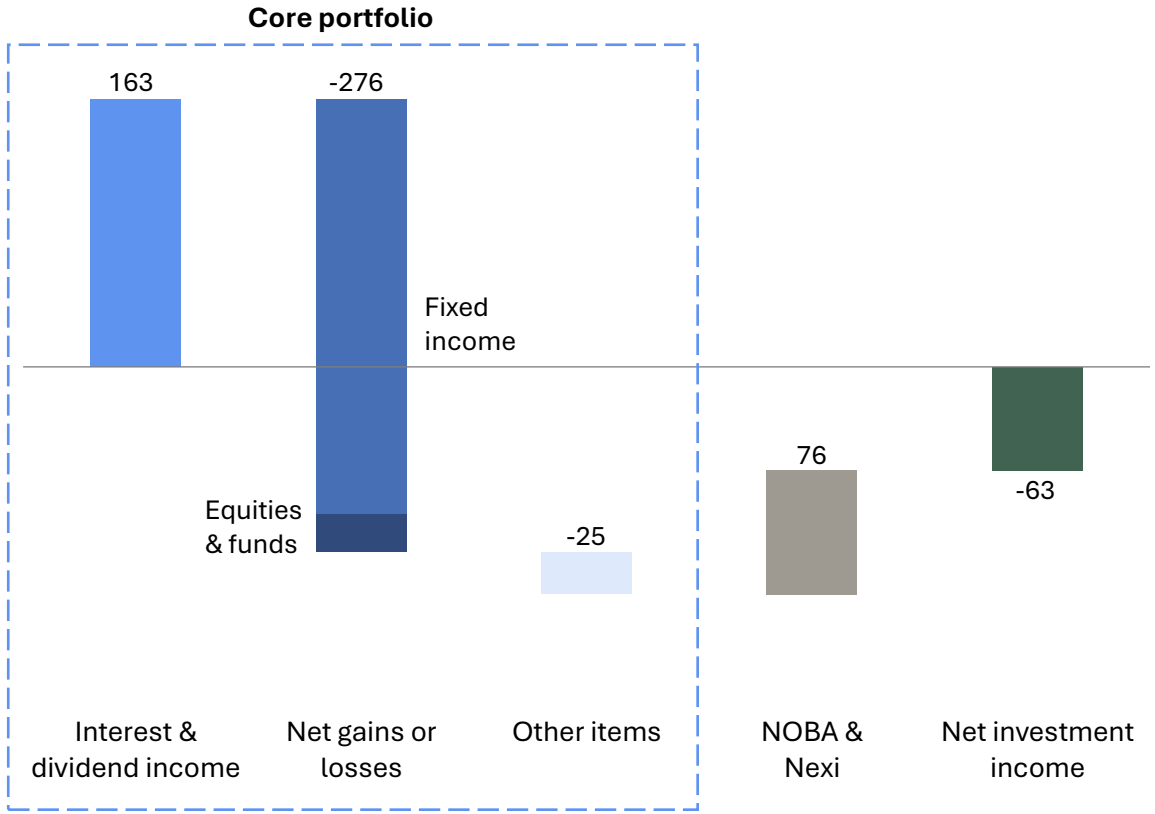

- Rising interest rates, particularly at the short end of the yield curve, led to fixed income net losses of EUR -253 million, resulting in negative net investment income of EUR -63 million in Q3
- Core investment portfolio continued to generate solid interest and dividend income of EUR 163 million over the quarter
- Higher reinvestment yields supported an increase in the fixed income running yield to 4.0%, while the mark-to-market yield rose by 0.8%-p to 4.3%

Group investment returns Q3/2026 and 1–9/2026

Investment returns burdened by sharply increased interest rates

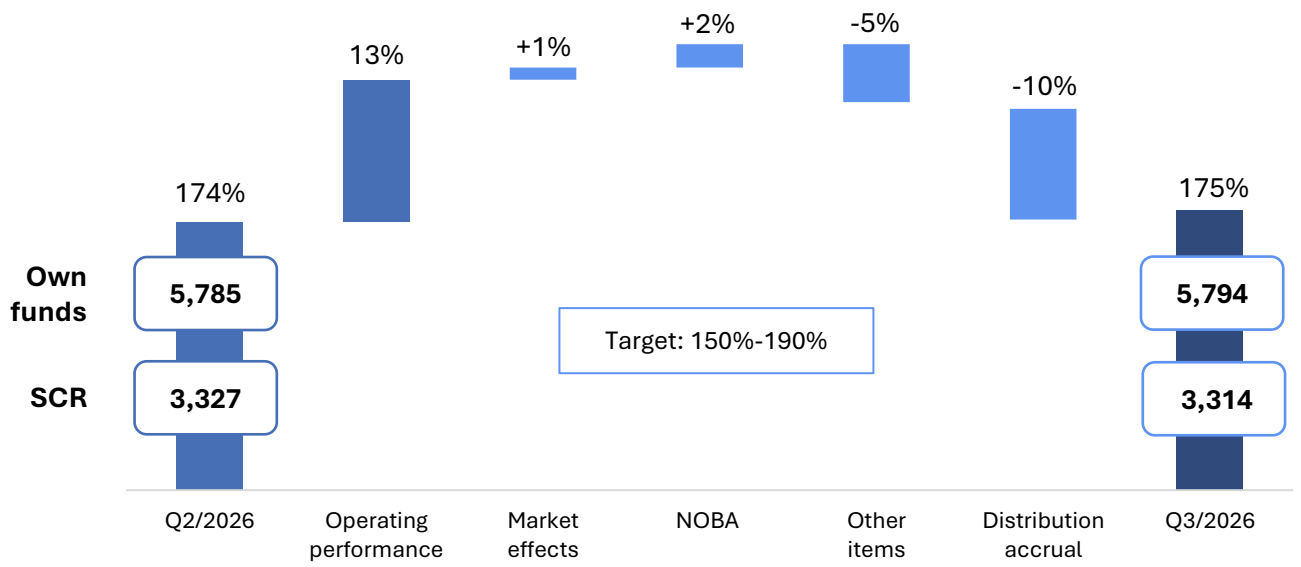

Group net investment income Q3/2026, EURm

Solvency II coverage supported by strong operating performance

- Solvency II coverage stood strong at 175%, supported by strong operating performance
- Positive market effects mainly driven by favourable FX movements, partly offset by higher interest and widening spreads
- Other items included underwriting seasonality, reserve strengthening and some technical effects
- NOBA share sales had an around 2%-p positive effect
- Financial leverage improved to 25.1% from 25.9% at the end of Q2, supported by retained earnings, while financial debt remained largely unchanged

Changes to operating result and operating EPS

The IFRS 18 Presentation and Disclosure in Financial Statements standard, due to applied from 1 January 2027 onward, introduces operating profit as a line item in the statement of profit or loss. To avoid ambiguity in terminology, Sampo's operating result and operating EPS will be renamed core result and core EPS, respectively.

At the same time, a few changes will be made to the calculation formula of these key figures:

- Interest expenses on restricted Tier 1 instruments, which is recognised in equity in the IFRS accounting, will be included in the core result, as they have cash effect.
- Derivatives related to hedging indexation of annuities and change in interest rates will be excluded for consistent treatment of mark-to-market effects.
- The fixed tax rate used for the core result calculation will be increased to 22 per cent from the current 21 per cent to better reflect the actual average effective tax rate.

Both the renaming and the changes in the calculation formula will be applied from the beginning of 2027. The changes will have no effect on full-year 2026 figures or the expected regular distributions for the fiscal year 2026. The comparable figures for the full-year and each quarter of 2026 will be published in connection with the full-year 2026 result in February.

Core EPS bridge

EURm	Q3/2026	1-9/2026
Operating result	**365**	**1,096**
-Inclusion of RT1 interest expenses	-9	-18
-Exclusion of certain derivatives	17	10
-Change of tax rate	-6	-12
Core result	**367**	**1,076**
Operating EPS	0.14	0.41
Core EPS	**0.14**	**0.41**

Outlook for 2026 adjusted to reflect the strong performance

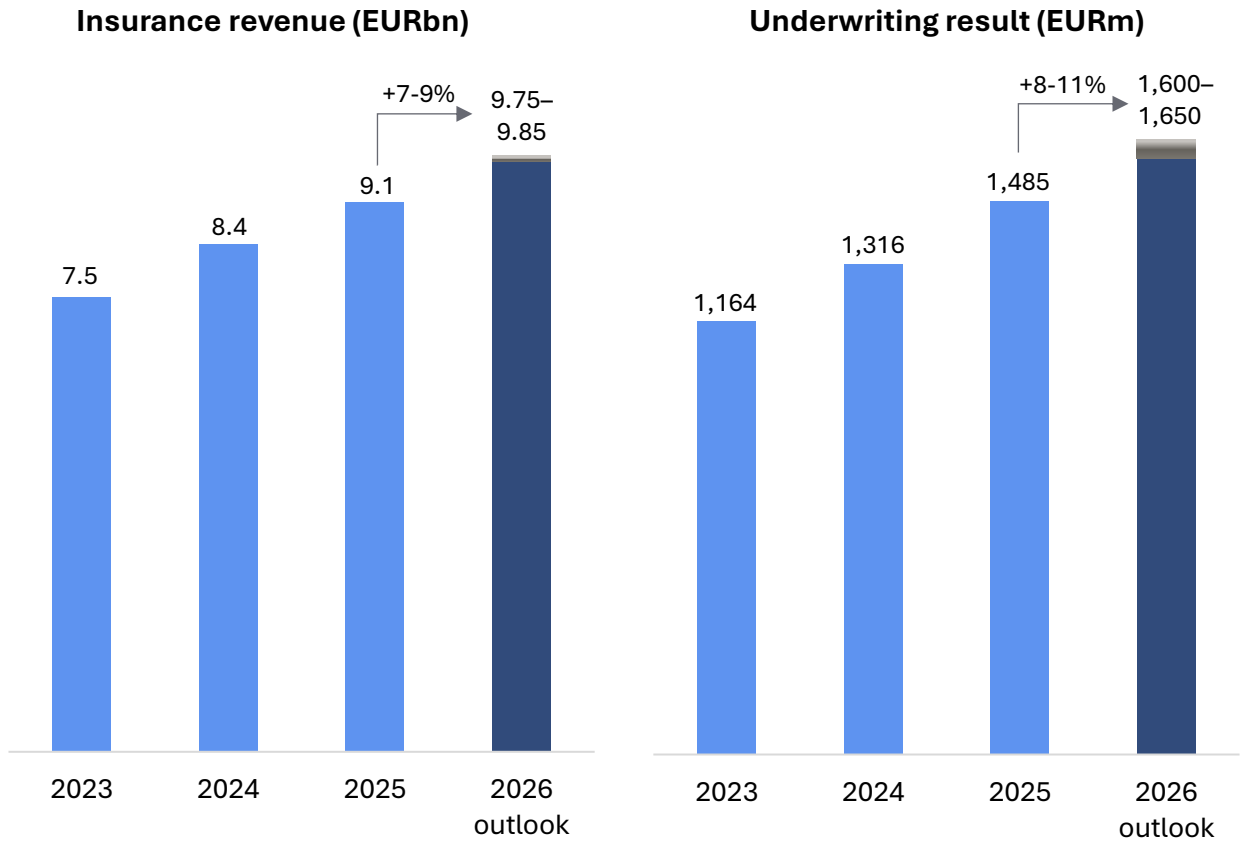

- Sampo continues to deliver steady UW profit growth, driven by attractive organic growth
- Following strong performance and a favourable weather and large claims experience in 1-9/2026, the outlook has been adjusted

Outlook for 2026

Group insurance revenue:
EUR 9.75–9.85 billion (from EUR 9.70–9.85 billion), representing growth of 7–9 per cent year-on-year

Group underwriting result:
EUR 1,600–1,650 million (from EUR 1,550–1,625 million), representing growth of 8–11 per cent year-on-year

Sampo is in a strong position to continue attractive UW profit growth

Private Nordic P&C market dynamics in a nutshell

Big total size split into small local markets

- Private Nordic P&C is a mature market, but still growing ahead of GDP
- Sizeable EUR >20 billion total market but individual countries are fairly small and competition is mostly local, with only few players operating in more than one country

Insurance is fundamentally a service business

- Customer value goes beyond financial compensation to service and assistance
- Claims are usually relatively small but frequent, and paid directly to claims partners

Strong and lasting customer relationships

- High-quality service supports strong customer satisfaction and retention
- Customers typically hold multiple policies, with service, convenience, coverage and trust in strong brands supporting retention

Nordic P&C is highly digitalised and transparent

- Nordic P&C is competitive, transparent and switching providers is already easy
- Customers are digitally savvy, with most new sales through digital channels, and many customers already use AI to compare products and prices

Resolution of claims is physical business

- Efficient claims handling requires extensive service capabilities and partnership network – more than 70% of motor claims are procured on behalf of customers
- Together with 2,000+ employees in claims and ~3,000 external claims partners, Sampo handles close to 2 million private claims annually in the Nordics

3) Personal insurance target raised from >7.5% in Nov 2025; 4. Private UK UW profit growth target raised from 10-15% in Nov 2025

Sampo’s Investor Update 2026

- Sampo’s Investor Update will take place in London on 17 November 2026.
- Group Management will provide further insight into Sampo’s operational and financial ambitions for the next strategic period
- The program will start at 10:00 am UK time and end at around 1:00 pm
- The event will be webcast and can be followed live at www.sampo.com

SAMPO GROUP

Performance by segment

Private Nordic: Broad-based growth continued

- Like-for-like top-line growth of 5.6% in Q3, driven by broad-based momentum across the Nordics
- In Q3, personal insurance grew by 12% and private property by 6%, while motor was up 3% with momentum expected to improve
- All Nordic countries reported positive top-line development with Denmark standing out in Q3, delivering high-single-digit growth
- Momentum in digital sales remained strong, although intensifying competition in Finland dampened growth to some extent in Q3
- High and stable customer retention at the target ambition level of 89%, supporting continued increase in customer numbers
- In Q3, combined ratio improved by 1.2%-p to 79.5%, benefitting from both benign weather and lower claims frequency, partly reflecting changes in driving patterns following a period of elevated fuel prices

**) Excluding Topdanmark, **) The new customer satisfaction metric combines relational NPS, transactional NPS for closed claims, customer satisfaction from inbound customer centre contacts and customer satisfaction from digital interactions into single KPI.*

Private UK: Capturing growth with disciplined underwriting

- Top-line development continued to be driven by LCP growth across several segments in motor and home
- LCP growth of 3% quarter-on-quarter and 13% year-on-year
- Average market prices for motor broadly stable year-on-year at total portfolio level
- Continued disciplined approach to risk pricing and risk selection – UW margins remained in line with target levels despite the softer pricing environment and home claims experience
- Risk ratio increased by 2.8%-p, mainly driven by lower average premiums and home claims experience, particularly fire and subsidence claims following the hot and dry summer
- Cost ratio improved by 1.5%-p year-on-year, reflecting higher level of earned premiums and continued operational efficiency

Nordic Commercial: Accelerating growth momentum

- Strong SME-driven growth momentum with high-single-digit like-for-like GWP growth for the second consecutive quarter
- SME lines grew by 9% in Q3 and 5% in January-September, supported by solid and broad-based growth across the Nordics
- Digital sales up 13%, totalling EUR 43 million on a rolling 12-month basis, progressing towards the operational ambition of EUR 45 million
- Combined ratio stood strong despite a higher risk ratio, driven by a higher level of large claims as well as Storm Dave
- Cost ratio improved by 0.5 %-p year-on-year to 23.8%, reflecting continued cost discipline and operational efficiency

Nordic Industrial: Strong margins amid soft market conditions

- Like-for-like top-line growth slightly negative in January-September, but up 3% in Q3, driven by new sales, particularly in Denmark
- Insurance revenue increased by 10% in 1-9/2026, supported by favourable reinsurance terms
- Despite the soft market environment, retention remained relatively strong, demonstrating high customer loyalty
- Project insurance continued to develop favourably and ahead of the prior-year
- Underwriting performance supported by large claims being below budget and favourable reinsurance renewals
- Cost ratio improved by 2%-p to 20.7%, reflecting continued efficiency measures and disciplined cost management

Key result movements Q3/2026

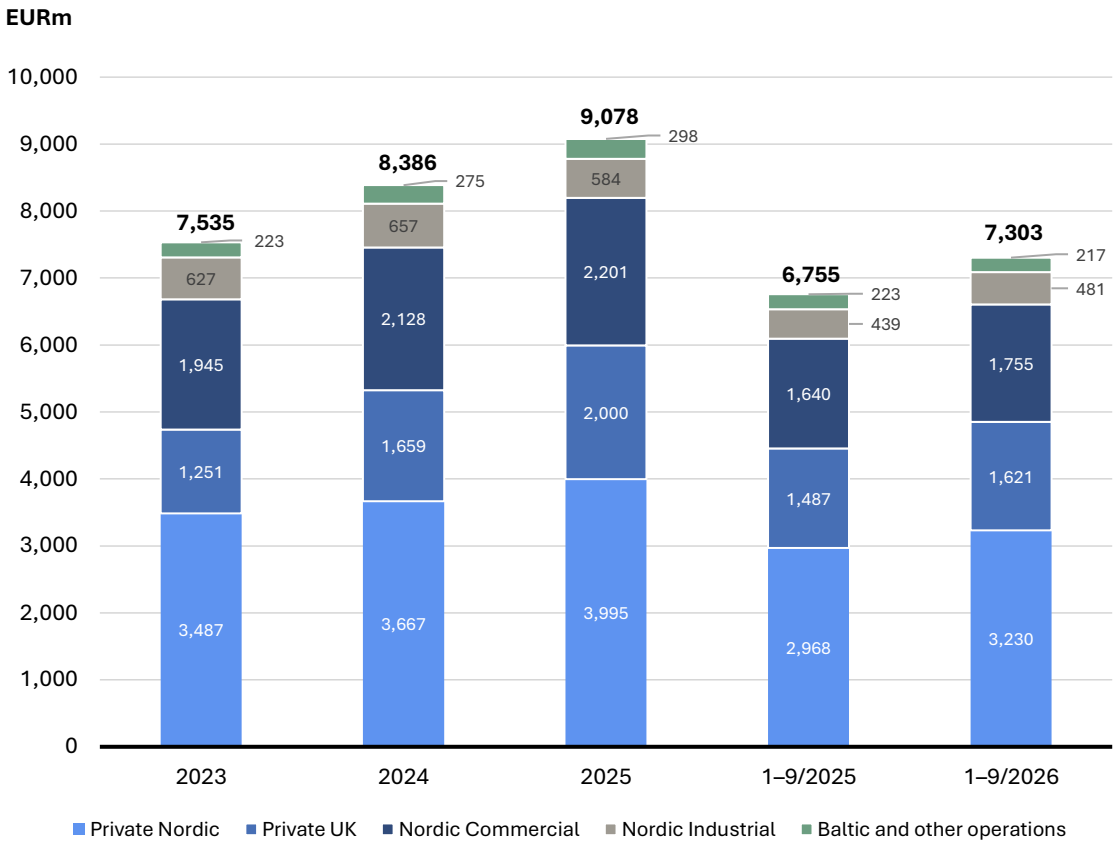

EURm	Q3/2026	Q3/2025	Comments
Gross written premiums	2,373	2,218	- Like-for-like growth of 6%, driven by continued momentum in private and SME lines
Insurance revenue, net	2,503	2,303	- Broad-based underlying development across segments
Underwriting result	435	392	- UW result up 9% on a currency-adjusted basis, supported by continued top-line growth and strong underwriting margins
- Private Nordic	225	196	- UW performance supported by strong top-line growth and benign claims experience
- Private UK	59	63	- UW result remained strong despite being affected by lower average premiums, a higher risk ratio and adverse FX movements
- Nordic Commercial	107	95	- Higher UW result supported by strong top-line growth and improved cost efficiency
- Nordic Industrial	24	20	- UW improvement driven by higher insurance revenue, lower reinsurance prices, improved cost ratio and benign claims experience
- Baltic and other operations	18	19	- UW result impacted by a higher cost ratio, reflecting lower volumes
Combined ratio, %	82.6	83.0	- Improvement driven by benign weather conditions, favourable large claims experience and positive underlying trends
Nordic underlying risk ratio, %	62.5	62.8	- 0.3%-p improvement driven by disciplined underwriting and a favourable large claims outcome
Net financial result	69	549	- Rising yields led to material net losses in the fixed income portfolio, partly offset through positive discounting effects on insurance liabilities, while the comparison figure was boosted by a EUR 355 million net gain from NOBA’s IPO
Profit before taxes	323	866	- Profit before taxes weighed down by the lower net financial result, while the UW result remained strong
Operating EPS, EUR	0.14	0.14	- Operating EPS up 2%, driven by improved UW result, partly offset by realised gains being lower than in the comparison period

All the key figures in the table above are calculated on a net basis. Ratios are also based on SEK figures, which may cause small quarterly differences compared to ratios based on reported EUR figures. Large claims measured against budget but severe weather claims are reported in full. Negative figures indicate a positive outcome.

Group net financial result

In the third quarter of 2025, the reporting method regarding investment income in the table above was changed so that interest income on bank accounts and assets at amortised cost have been moved from Other items to Fixed income under Interest and dividend income. The figures for 2023-2024 have been restated as well.

Net investment income	Spreads +100 bps	-395
Net investment income	Equities -10%	-210

**) Effect from current year Liability for incurred claims, net. CR improvement from increase in rate, CR deterioration from decrease in rate*

- Loss and combined ratio sensitive to changes in discount rates
- Net investment income sensitive to mark-to-market returns on assets
- IFIE sensitive to changes in discount rates
- Sampo Group discount rate sensitivity driven by long-tailed annuity reserves in EUR and SEK (duration ~11 years)
- Sensitivities change over time and vary somewhat by quarter

The unwind of discounting is expected to be around EUR -90 million in Q4/2026.

Solvency II ratio development

SAMPO GROUP

Sampo Group overview

Safety and value through understanding risks

Sampo is the leading Northern European P&C insurance group

9 million customers in 8 markets

Multiple strong brands

Hastings, if..., Topdanmark, Dansk Sundheds Sikring, Volvia

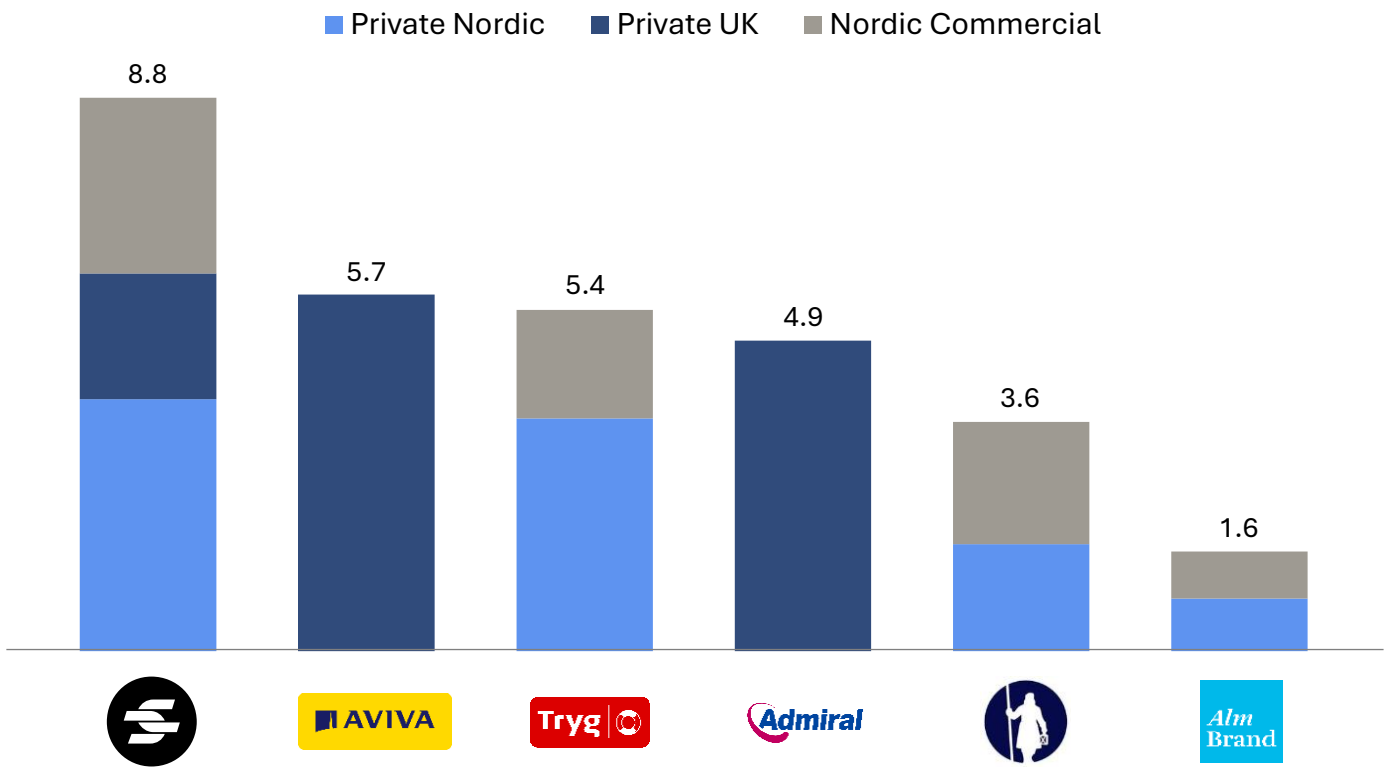

Unique partnership network*

Volvo, Nordea, Volkswagen

*Examples of Nordic partnerships

Sampo's scale is unmatched among P&C peers

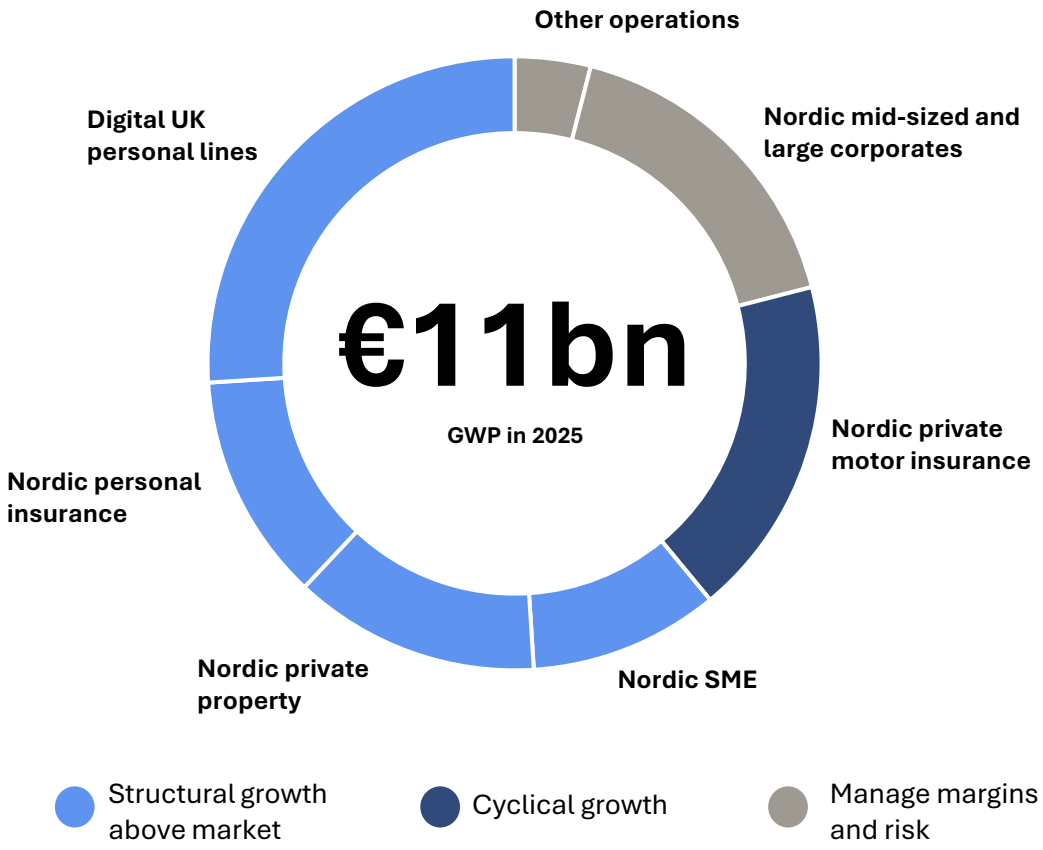

Insurance revenues, EURbn

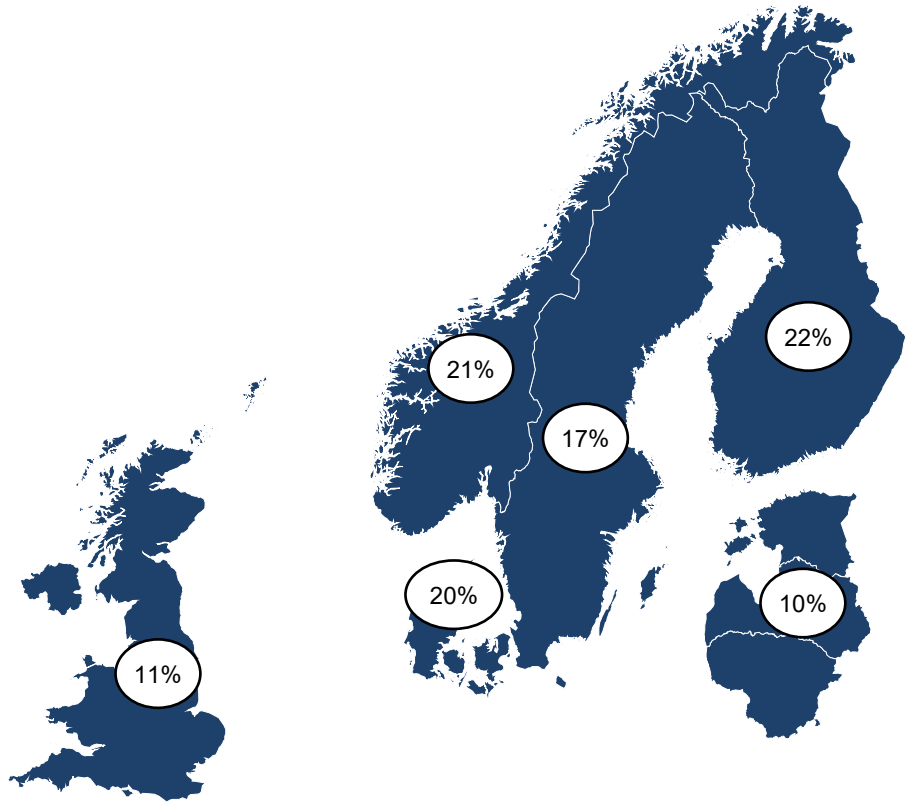

Note: Peers' figures based on segments relevant to Sampo.

A well-diversified platform with scalable growth potential

Multiple attractive growth areas

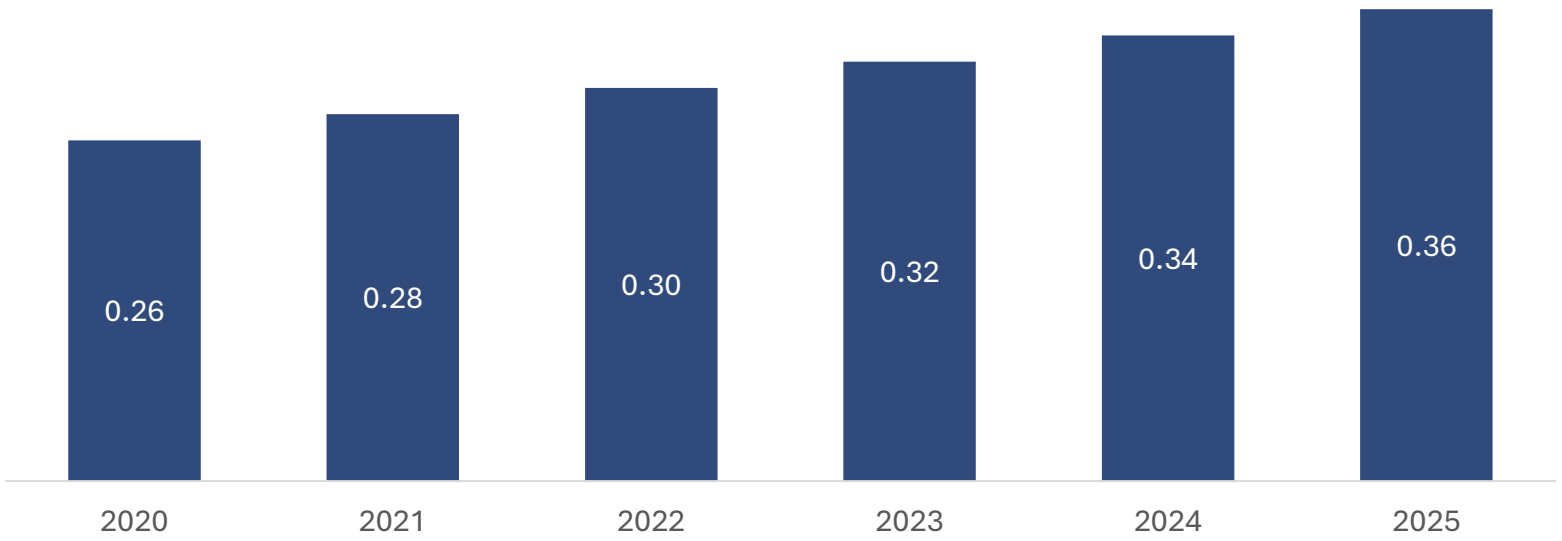

Leading market position across markets

Note: UK = Private car market share

Sampo aims to deliver attractive and reliable capital returns

Regular dividend per share, EUR

Buybacks, EURm	750	1,228	400	475	350

Note: Dividends based on the fiscal year, buybacks on the announcement year. Figures excluding extra dividends and Mandatum's contribution.

Distribution policy

Sampo aims to return capital through a **reliable and progressive regular dividend** complemented by share buybacks.

In a typical year, Sampo expects to return **around 90 per cent** of its operating result to shareholders through dividends and share buybacks, of which its **annual dividend is expected to represent more than two-thirds**.

To ensure that the Group's balance sheet remains both strong and efficient, as defined by its capital management framework, Sampo may take additional action to return excess capital or to protect the balance sheet.
